

FRANKLIN CONTINUES
TO INCREASE OUTPUT.

"Breaking production records is getting to be a habit with the Franklin Automobile Company," says Glenn A. Tiedale, local Franklin agent, "and this condition seems particularly expedient these days when the demand for this economical car has so greatly increased. A few weeks ago the company reported a factory production record of 90 cars per week, and now comes the

announcement that 254 cars have been constructed in a single week. "When the five new additions to the plant were put into service in March it was expected that congestion would be relieved. Barely seven months have elapsed since the company was placed on a 12,000-car-per-year basis, and now a record of production is announced at the rate of 10,000 cars per year."

USED CAR BUSINESS GOOD.

Considerable activity in the sale of used cars this fall is reported by Jack Hasbrouck, sales manager for the H. A. Sanders Motors Corporation, dis-

tributors of Abbott cars.

"One of the reasons for the unexpected increase in the sales of good, overhauled used cars," says Mr. Hasbrouck, "is that the public anticipates an advance in prices in proportion to the rise in new car prices on account of the increased cost of parts and labor."

The policy effected by Mr. Hasbrouck for their used car department will alter the old fashioned price haggling methods. His method is to take the exchanged cars and demonstrators after they have been put in first class condition, affix a fair price, and that price will be the first and only price that car will have.

Soldiers Want Books to Read

SEND YOURS TO CAMP!

THE EVENING WORLD has arranged the following plan whereby you can send books and magazines to the army camps where there is an immediate need for good reading material:

THE JUNIOR AMERICAN GUARD, a boys' military organization with headquarters at No. 79 Wall Street, has volunteered the services of its 3,600 boys in this district to call, in uniform, at the homes in Greater New York and collect and deliver such books and magazines as you may have to give to our soldiers. Their canvass will continue for two weeks.

THE AMERICAN LIBRARY ASSOCIATION will deliver the books and magazines, collected by the Junior Guard, to the army camps, by the quickest means possible. The New York Public Library has offered its branches as receiving stations, to facilitate collections.

WHAT BOOKS AND MAGAZINES TO GIVE. BOOKS particularly are wanted. WAR LITERATURE of all kinds; personal narrative, military text-books, wireless telegraphy, submarines, automobiles, aviation, first aid, French grammar and dictionaries. FICTION of all popular kinds; sea stories, romances, historical novels, standard poetry, books of short stories, humorous writings. Also histories of the European nations at war.

MAGAZINES are not wanted if over two months old. Late issues of all the popular fiction publications and scientific magazines are very acceptable. Both books and magazines should be in good condition, for they must undergo considerable wear and tear.

To assist in the canvass, if you have books or magazines to give, send a postal card bearing your name and address to the Camp Library Editor, New York Evening World.

LET YOUR BOOKS DO THEIR BIT AT THE CAMPS, TOO!

Junior American Guard in Uniform.

DEFENSE LEAGUER
KILLED, 2 HURT BY
BONFIRE MAKERS

Brick Thrown From Roof
Crushes Mang's Skull as He
Tries to Put Out Blaze.

One member of the Home Defense League was killed, another was knocked senseless with his own night stick, and a third was painfully cut in efforts to put out street fires on the west side last night.

A brick thrown from the roof of the tenement house at No. 513 West 49th Street about 6 o'clock last night caved in the skull of Adam Mang, a Home Defense Leaguer, who was putting out a fire started by boys in the street. Mang died at the Poly-clinic Hospital of a compound fracture of the skull.

Mang, who was forty-six years old and in the moving van business, lived at No. 468 West 47th Street. Detectives of the Second Branch are trying

to find boys who, it is supposed, threw bricks after they had been interrupted at the sport of building fires.

Patrolman John H. Mehrkens of the 47th Street Station was putting out a street fire a block further east when a brick from a roof struck him right hand. In the Poly-clinic Hospital the wound was stitched.

When August Kuhn, real estate dealer and member of the Home Defense League, walked up to put out a fire on 52d Street, between Ninth and Tenth Avenues, last night, some one wrested his nightstick from him and used it to knock the Leaguer senseless.

Patrolmen Enright and Goldstein of the West 47th Street Station saw the attack from their posts a block away

and ran to the rescue. They followed the assailant onto the roof of No. 455 West 53d Street, down through the next house and over a back fence. Then Enright caught the man, who was subdued only with the aid of a nightstick.

The prisoner said he was William Slattery, a packer, of No. 319 West 47th Street.

Sick People Sometimes Die
From Lack of a Good Stimulant

Especially is this true in grip and pneumonia, for they are infectious diseases which attack weak and strong alike. Serious complications are liable to develop in the course of the disease, as grip settles in the weakest part of the system, sometimes the kidneys, the brain, the stomach or the heart, resulting often in heart failure, but the most dreaded of all, pneumonia, which is particularly fatal when arising from grip. As one able medical writer says:

"In all severe types of pneumonia there are two sources of danger—heart insufficiency and high temperature. A large portion of deaths from pneumonia directly result from heart failure."

Duffy's Pure Malt Whiskey

judiciously used is one of the most efficient means of preventing or overcoming it."

The reason it is a remarkable remedy in the treatment and relief of grip, coughs, colds, influenza, bronchitis, catarrh, pneumonia, and all diseases of the throat and lungs, is that Duffy's Pure Malt Whiskey aids in keeping the digestive functions in healthy condition so that the body gets the necessary health and strength from food eaten—enabling it to throw off disease germs. For more than 36 years it has brought the blessings of health to overworked men, delicate women and the sickly, who find in Duffy's the strength-giving properties that are so necessary to them.

"Get Duffy's and Keep Well."

Sold in Sealed Bottles only. Beware of imitations.

NOTE: Get Duffy's from your local family wine store, licensed druggist or grocer. If he cannot supply you, write us. Send for catalog household booklet free.

TWO OLD MAYORS
FALL IN SWEEP
OF WESTCHESTER

Fiske of Mt. Vernon and Len-
non of Yonkers Defeated—
Republicans Carry County.

The entire Republican county ticket in Westchester has seemingly been elected. This apparent landslide carried to victory the following candidates: Charles E. Noseter for Sheriff, William Archer for Treasurer, James A. Apper for Register, Robert A. Patterson for Comptroller and W. M. W. Mills and John Stells for Coroner.

In Mount Vernon Mayor Edwin Fiske, Democrat, was defeated by Dr. Edwin E. Brush, whose plurality is figured at 54. Mayor Fiske refused to sign an early hour to-day to acknowledge defeat, claiming that the soldier vote of the city—300 strong and scattered through various camps—would give him a victory. The supporters of Dr. Brush, representing the reform element of the city, look upon the election of their candidate as assured.

In New Rochelle Mayor Griffling, Republican, was defeated by Frederick Waldorf, Democrat, by a plurality of 171, while in White Plains Mayor Thompson, Democrat, was elected by a plurality of 96 over William C. Welles, Republican.

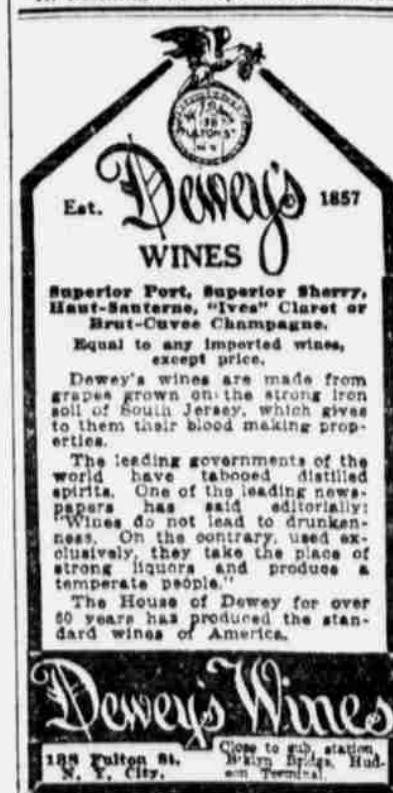

In Yonkers James T. Lennon, Democrat, after eight years in office, was beaten by William J. Wallin, Independent Republican. Wallin ran on a reform platform and beat his opponent by a plurality of 2,500. It was a Republican sweep, the late returns indicating the election of James Lynch for Comptroller, William Halley for Treasurer, George Blakely for Assemblyman and John Stahl for Aldermanic President.

Mayor Thompson of White Plains was re-elected by 108 majority over William J. Welles, the Republican candidate, in the closest election in the history of the city. The Republicans elected John Bremner, Frederick C. McLaughlin and G. Albert Thompson to the Common Council, thus gaining control. The Democrats elected two Supervisors, George Cox and Frank Lamb, while the Republicans elected one, Robert Smith.

In Ossining the Republicans carried

Studebaker
TRADE-IN-SALE

---only a few more chances now to
make a Trade---HURRY!

Look your old car in the face
and then at our Trade-In Sale offer!

It's been a mighty good old car; but, honestly, hasn't it started to go in spots? Aren't the tires pretty well used up and the paint and upholstery in need of renewing and haven't you got to the point where repair bills seem to come around oftener than they used to?

You may have considered all these things and thought of making a trade-in a little later on — next spring, perhaps, but if you knew the facts as automobile men know them today, you wouldn't wait another minute.

Manufacturers are announcing new price increases without notice almost weekly. The war is the cause, but it hasn't affected us yet because we still have a few new Studebaker cars produced from materials secured months ago.

Perhaps never again will you be able to make as satisfactory a trade-in arrangement on your old car as you can make during our Trade-In Sale.

Right now we have a waiting market for a few good used cars of standard makes. If yours is a Studebaker, or any one of eight other good standard makes, we can make you a trade-in proposition today, which will be splendid economy and a genuine investment.

But you must come in immediately.

\$745

F. O. B. DETROIT

Straight and sure—like an arrow that flies from the bow and imbeds itself in the bull's-eye—

So have the Maxwell builders fixed a price for their product—\$745—which makes it possible for them to say:

"Below this figure there must be something lacking which we have put into the Maxwell—efficiency, durability, economy, comfort, beauty or standard equipment."

—and above this figure we could give you no greater practical utility—only larger size or richer and fancier furnishings."

This is the scientific fact—proved and demonstrated by one of the giants of the motor car industry in years of production on an immense scale.

And we stand firm on this finding of the Maxwell builders.

We believe the Maxwell to be the BEST MOTOR CAR INVESTMENT possible today.
